<p>Briefly summarize work assignments completed this week (use additional sheets if necessary).</p> <p>This week the website is at 80 percent functionable, I still working with my partner for the backend of the website and keep testing for the possible error that may occur during the operation. The estimate that we need to do is the security for the input of the users, I disable the special characters that my used for SQL Injections and might ruin the database and the code. Also we are still researching the possible attacks that might happen and making a counter part of it. We are very sensitive in this since it hold the data of the cliens.</p>
